

PUBLIC & PRIVATE CAPITAL INVESTMENT IN THOMPSON 2013 - 2015

As a result of the City of Thompson's efforts to strengthen our role as a regional service centre through the TEDWG Action Plans, we have attracted significant capital investment in our city & grown our economic base. These investments contribute to an influx of individuals & families building a stable, comfortable lifestyle in and around our region.

TOTAL INVESTMENT

University College of the North

We were successful in securing vital new capital investment for the build-out of the University College of the North, Thompson Campus. This provides a foundational building block for further investment & a hub for higher education for Northern residents.
